# PRE-TERMINATED TIGHT BUFFERED ASSEMBLIES

Experience faster installation, lower costs, and reliable performance with our pre-terminated tight buffered fibre optic assemblies. Perfect for data centres, building backbones, and connecting devices within buildings, these versatile cables offer a simple and effective solution for your indoor network needs, with some outdoor use due to its LSZH jacket.

Our pre-terminated tight buffered assemblies are connectorised directly onto 900µm tails, colour coded for easy identification. This popular design offers a lightweight yet robust solution, with protection options to suit your environment and application.

Available in Single-mode and Multimode, all of our pre-terminated assemblies are manufactured in our dedicated UK facility, custom made to your specifications.

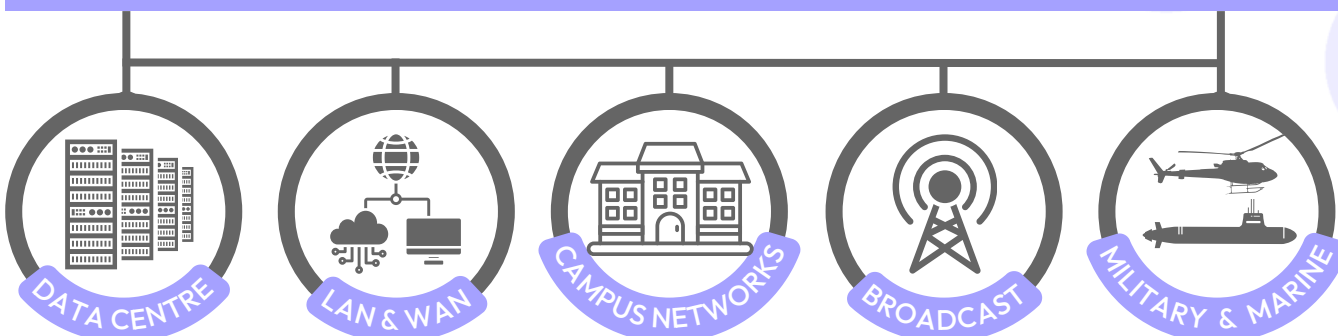

## FEATURES

- ✓ **UK Manufacture:**  
Bespoke design, high precision, consistent quality and fast turnaround.
- ✓ **900µm Tails:**  
Colour coded for easy identification and connection to inside panel ports.
- ✓ **20mm Gland:**  
Fitted with a 20mm gland as standard. ATEX approved gland available.
- ✓ **Versatile Cable:**  
Suitable for indoor application, including riser installation, and some outdoor use.
- ✓ **CPR - Eca to B2ca Rated:**  
Available with fire rated cable.

## BENEFITS

- ✓ **Ideal for Indoor Application:**  
Designed for inside panels and closures for vertical and horizontal patching.
- ✓ **Reduced Install Time:**  
Pre-termination eliminates field termination or splicing, saving time and labour costs.
- ✓ **Custom Made & Fast Turnaround:**  
Factory terminated connectors provide lowest guaranteed losses.
- ✓ **Colour Coded For Easy Identification:**  
Coloured tails and cables for simplified installation and maintenance.
- ✓ **Lightweight Design:**  
Robust and lightweight, aiding handling and installation.

## APPLICATIONS

# PRE-TERMINATED TIGHT BUFFERED ASSEMBLIES

NB: Construction of a Tight Buffered cable

## CABLE CONSTRUCTION

- Tight buffered style.
- Multiple 900µm fibres.
- Aramid yarn or E-glass protection.
- 6-8.5mm jacket LSZH.
- PUR & Mil-Tac jackets available.
- CPR – Eca, Dca, Cca, B2ca.

## SPECIFICATIONS

Element	Characteristic
Fibre Mode	Single-mode Multimode: OM1, OM2, OM3, OM4, OM5
Fibre Count	2, 4, 8, 12, 16, 24
Connector Options	Simplex: LC, SC, E2000, FC/PC, ST, MU Polish: UPC & APC.
Cable (LSZH)	Outer Jacket: 6-8.5mm
	Nominal Weight: 25-62 (kg/km)
Crush Resistance	2000N/100mm <sup>2</sup>
Bend Radius	Install: 20D, Static: 10D
Temperature Range	-20°C ~ +60°C

Connector Type	IL Typical	IL Maximum	Return Loss
Single-mode UPC	<0.25dB	<0.35dB	≥50dB
Single-mode APC	<0.25dB	<0.35dB	≥60dB
Multimode UPC & APC	<0.25dB	<0.50dB	≥25dB

## BREAKOUT STYLE

- 20mm cable gland fitted as standard.
- ATEX approved gland available.
- Tail lengths from 0.3m to 3.0m.
- Staggered tails to fit protection tube.
- Simplex style connectors.

## PROTECTION OPTIONS

Non-Staggered Tails	
Option	Pull Force
Braided sleeve with pulling eye	50N
PVC sleeve with pulling eye	30N

Staggered Tails	
Option	Pull Force
